

※ Integrity Platform for the Post Logistics Park

Construction Project

Visionary Outcomes

(1) Information Disclosure and Administrative Transparency

The "Ethics Transparency Area" has been set up on the Company's website to disclose information about the Project's purchases, including the contents and execution of engineering cases, procurement cases, and investment promotion cases, to protect the public's right to know, to help monitor and promote effectiveness, and to effectively curb the occurrence of irregularities.

(2) Cross-Domain Integration and External Communication

We invite manufacturers, experts and scholars, as well as personnel from the relevant units of the Company, to hold symposiums to collect feedback and suggestions for reform, handle petitions, explore the reform issues of each procurement and investment promotion project, and resolve potential risks and disputes promptly.

(3) Smoothly Promote the Program and Improve the Effectiveness of Services

By using various administrative transparency measures and monitoring through external forces, we encourage the industry to uphold incorruptibility, abide by legal regulations and eliminate improper external interference, so that we can accurately grasp the progress and complete the Post Logistics Park construction project on time and in quality, to provide quality logistics services to the nation.
